The book is based on ethnographic research conducted by the author over a period of two years. She lived in the village and participated in the daily lives of the women she studied. This allowed her to gain a deep understanding of their perspectives and experiences.

The book is divided into three parts. The first part provides an overview of the Hmong people and their culture. The second part examines the gender roles and experiences of Hmong women in the village. The third part explores the ways in which gender shapes the cycle of life for Hmong women.

This book is a valuable contribution to the literature on gender and development. It provides a unique insight into the lives of Hmong women in a rural village in Laos. The book will be of interest to scholars, students, and practitioners working in the fields of gender studies, development studies, and Southeast Asian studies.
