Materials

- 1/2-inch thick cedar or redwood planks
- 1/4-inch thick plywood
- 2x4 lumber
- 1-inch x 6-inch pine boards
- 1/2-inch galvanized bolts
- 1/4-inch galvanized washers
- 1/2-inch galvanized nuts

- Wood glue
- Exterior paint or stain
- Roofing felt
- Shingles
- Bucket
- Chain
- Pulley

Tools

- Circular saw
- Drill
- Screwdriver
- Hammer
- Nail gun
- Clamps
- Level
- Tape measure
- Safety glasses

Step-by-Step Instructions

1. Build the frame

Begin by cutting the 2x4 lumber to the desired length and width of the well. Assemble the frame using wood glue and screws. Make sure the frame is square and level.

2. Attach the planks

Cut the cedar or redwood planks to the desired length and width. Attach the planks to the frame using wood glue and nails. Be sure to space the planks evenly.

3. Build the roof

Cut the plywood to the desired size for the roof. Attach the plywood to the frame using wood glue and screws. Cover the plywood with roofing felt and shingles.

4. Install the pulley

Install the pulley on the roof of the well. The pulley will be used to raise and lower the bucket.

5. Attach the bucket

Attach the bucket to the chain. The chain should be long enough to reach the bottom of the well.

6. Finish the well

Paint or stain the well to your desired finish. You can also add decorative touches, such as trim or molding.

Building a wooden wishing well is a fun and rewarding project that can be enjoyed by people of all ages. With a little planning and effort, you can

create a beautiful and functional addition to your home or garden.
