

Novel and Combination Therapies for Hepatitis Virus: An Issue of Clinics in Liver Disease

Edited by Jasmohan Bajaj and Peter Ferenci

This issue of Clinics in Liver Disease, edited by Drs. Jasmohan Bajaj and Peter Ferenci, provides an update on the rapidly changing field of hepatitis virus therapies. The issue begins with an overview of the current understanding of hepatitis virus infections and their global impact. This is followed by a discussion of the latest developments in antiviral therapies, including new drugs and combination therapies. The issue concludes with a look at the future of hepatitis virus therapies, including the potential for eradication of some viruses.

Novel and Combination Therapies for Hepatitis C Virus, An Issue of Clinics in Liver Disease (The Clinics: Internal Medicine Book 17) by Oliver Johnson
