Discover the healing power of mindfulness, meditation, yoga, and other stress-reducing practices that can restore balance and tranquility to your life.

HOW TO CONTROL HIGH BLOOD PRESSURE

Aside from medication, your lifestyle plays a big part in controlling blood pressure.

Here are some tips to lower high blood pressure:

- Lose weight..

- Eat healthy..

- Exercise regularly

- Limit your alcohol intake.

- Reduce your sources of stress.

Chapter 6: The Role of Medications

In certain cases, medications may be necessary to effectively manage high blood pressure. This chapter provides a comprehensive overview of the different types of medications, their mechanisms of action, and potential side effects. Learn how to work closely with your healthcare provider to find the optimal treatment plan for your individual needs.

Chapter 7: Monitoring Your Progress and Staying Motivated

Empower yourself with the tools to monitor your blood pressure and track your progress. Learn the importance of regular check-ups, interpreting your readings, and staying motivated throughout your journey. Discover the power of support systems, goal setting, and journaling to keep you on track and focused on your health goals.

My Home Blood Pressure Log

My target home blood pressure is less than _____ / _____ mm/Hg. I use my Right Left arm.

REST: 10-15 minutes before taking the first blood pressure reading (#1).

WAIT: 1 minute before taking the second blood pressure reading (#2).

MEASURE: before taking your blood pressure medication & before eating or 2 hours after eating.

TAKE: your blood pressure 10 to 12 hours apart when doing AM/BPM measurements.

READ: "How to Measure Your Blood Pressure at Home" for more information about proper home blood pressure measurements technique at www.hypertension.ca.

DISCARD: the readings of the first day and do the average of the last 5 days.

BRING my log and my medications to every appointment with my health care professional.

SAMPLE

	DATE	TIME	COMMENTS	BP Reading #1 (mmHg) Systolic	BP Reading #2 (mmHg) Diastolic
