## The Woman's Identity

The Woman is described as "a great whore that sitteth upon many waters" (Revelation 17:1). This evocative imagery has led to various interpretations of her identity. Some view her as a representation of the Roman Catholic

Church, while others see her as a symbol of the ancient city of Babylon, known for its opulence and idolatry.

However, a deeper understanding of the biblical text and its historical context reveals a more profound interpretation. The Woman represents a global system of secret societies, occult practices, and false religions that has existed throughout history and continues to wield significant influence in the world today.

### **Her Ancient Roots**

The Woman has her roots in ancient mystery religions that originated in the Middle East and spread throughout the Roman Empire. These cults often practiced secretive rituals, worshipped multiple deities, and engaged in licentious behavior.

The Woman in Revelation bears striking similarities to the Babylonian goddess Ishtar, who was known as the "Great Mother" and was associated with fertility, love, and war. Ishtar's cult rituals were renowned for their licentiousness, and her followers often engaged in sexual practices as a form of worship.

### **Her Connection to History**

The Woman's influence can be traced throughout history. During the Middle Ages, secret societies such as the Knights Templar and the Rosicrucians emerged, claiming to possess ancient knowledge and secret rituals. These groups were often accused of practicing witchcraft and devil worship.

In the 18th century, the rise of Freemasonry spread the influence of these secret societies even further. Freemasons adopted many of the symbols

and practices of ancient mystery religions, and their lodges became places where powerful men could network and exert influence.

## **Her Impact on Prophecy**

The Woman's ongoing operation has a profound impact on the prophetic events described in Revelation. She is depicted as deceiving the nations, corrupting their rulers, and leading the world into a global conflict. Her ultimate destruction, however, is foretold in a spectacular display of divine judgment.

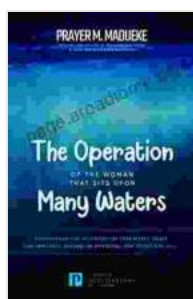

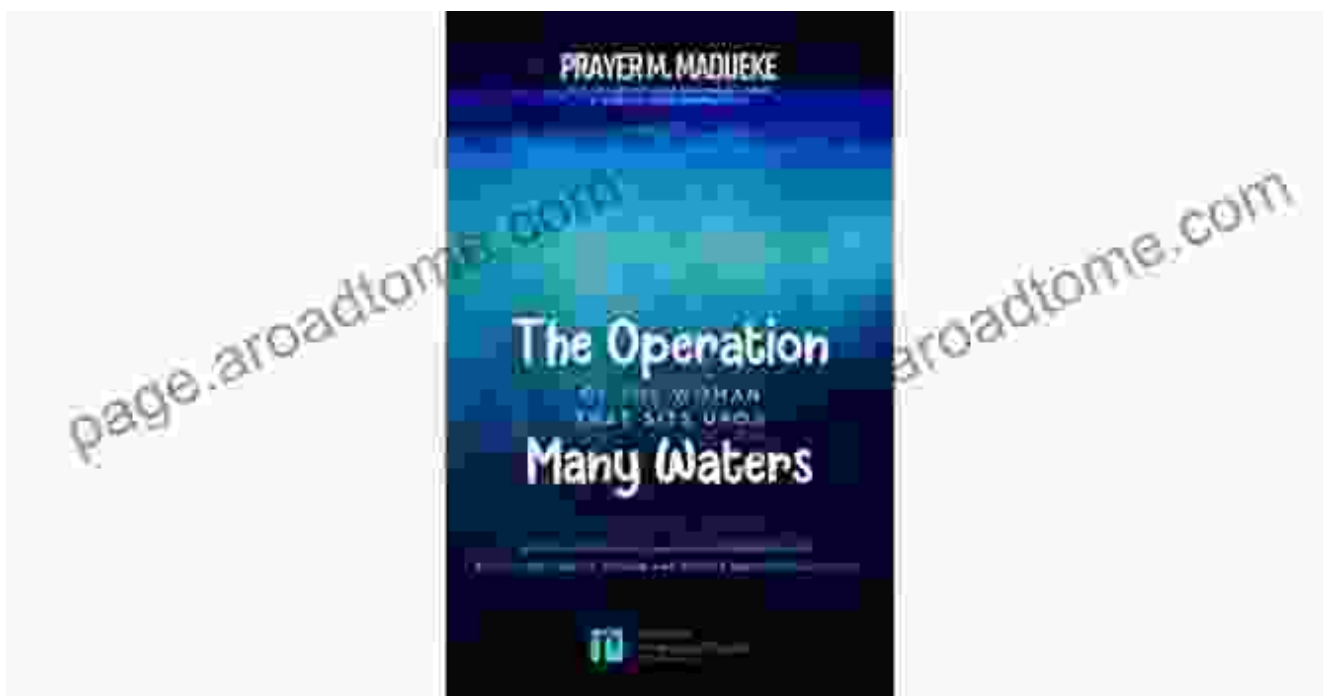

The Woman's influence represents a major obstacle to the spread of the true Gospel and the establishment of God's kingdom on earth. However, God's ultimate victory over the forces of darkness is assured, and the Woman's power will eventually be broken.
